Irrigation Controls Smart Panels

Valley® ICON® Series – Total Pivot Management at Your Fingertips

We designed our smart control panels to decrease the time and effort you spend, eliminate unnecessary visits to your field, and give you the control you need to manage your irrigation operation simply and efficiently.

Save Money Save Time

The Most Advanced Smart Panels in the Industry

- Entering commands and programs with Valley® ICON® panels is easy with the full-color touchscreen display.
- The intuitive graphical user interface shows the real-time status of the center pivot through easy-to-understand screens and icons.
- See immediate changes in bright, vivid colors. ICON panels make managing your pivot fast and easy.
- Connect all your fields and technology on one platform with Valley 365™ built in* – ICON Link is installed standard.*
- Optimize your yields – every ICON panel is Variable Rate Irrigation (VRI) capable
- Protect your investment with cable theft monitoring*

* Additional hardware or subscription required.

Irrigation Controls Smart Panels

Trusted AgSense® monitor and control technology forms the foundation of Valley 365, our single sign-on platform for total connected crop management. Learn more at **valleyirrigation.com/365**.

Control at the Pivot Point:
